

Work:

Artist:

What is the medium of the work of art, what is a physical description of the piece?

When was the piece created? At what point in the artist's life was it generated (see our introductory blog post for more context on both of their lives).

Describe different artistic elements in the work (line, shape, light, color, texture, space, time, motion, etc.)

What is the total effect of these various elements? How does it help communicate the Word?
